Products At-A-Glance

A brief overview of our product line

Products issued by Midland National® Life Insurance Company

Protection – Growth – Flexibility

Focus on: Life insurance

In addition to death benefit protection, no matter what your client's focus is, Midland National has life insurance products that can be the cornerstone of their financial plan.

Focus on: Protection

Death benefit

All life insurance offers a death benefit that's generally free from income taxes. With face amounts from \$50,000 to \$1 million and more, you'll be able to find a policy that can meet your client's death benefit requirements.

Guaranteed level premium duration

Premier Term offers level premium durations up to 30 years¹ and competitive premiums.

Death benefit guarantees²

Essential Guaranteed[®] Universal Life 5 offers a guaranteed death benefit to any age up to 120, and with Strategic Protector[®] IUL your client can purchase a rider that guarantees the death benefit.

The death benefit guarantee is flexible—just pay more or less premium to adjust the length of the death benefit guarantee.

Focus on: Growth

Tax-deferred

Our indexed universal life (IUL) insurance products offer potential policy cash values that grow on a tax-deferred basis³ and can be used while your client is living.

Interest bonus¹⁰

Most of our indexed universal life insurance products offer interest bonuses on both the fixed and index accounts.

Index selections

Our IUL products offer multiple indexes and crediting methods. Plus, the index account has a zero percent floor—the value in the index account does not decrease due to the change in the index. In no case will the interest credited be less than zero percent. So, negative index performance won't inhibit earning potential. Interest credits may be subject to an index cap, participation or spread rate.

For more information on index selections and crediting methods, refer to the Index Selections brochure. For a listing of caps and participation rates, refer to the Index Caps and Participation Rates brochure.

Choice of policy loans⁴

Midland National's universal life and indexed universal life products offer standard loans and contractually guaranteed net zero cost loans.⁵ Net zero cost loans are generally available after five policy years depending on the product. With these loans, we guarantee that the interest we charge is the same amount as the interest we credit to the portion of borrowed funds. The result is a net zero cost.

Our IUL products also offer variable interest rate policy loans⁶ and fixed interest participating policy loans¹¹ (only for Strategic Accumulator IUL 2) starting in policy year one. With these loans, the loaned portion of the cash value remains in the index account and receives the same interest as non-loaned money.* The rate charged on variable interest rate policy loans⁶ is tied to the Moody's Corporate Bond Yield as published by Moody's Investor's Services, Inc. The rate charged on fixed interest participating loans¹¹ is declared by Midland National. Only one loan type is available at a time, but policyowners may switch between loan types (at no cost) on a monthly-anniversary. The remaining balance will be transferred to the new loan.

**Depending on the product, certain bonuses are available on non-loaned money that are not eligible for loaned money.*

Focus on: Flexibility

Accelerated death benefits*

Midland National offers living benefits that allow the owner to accelerate a portion of the death benefit should the insured become critically, chronically or terminally ill, subject to eligibility requirements. The acceleration of the death benefit pays an unrestricted cash benefit. These benefits are automatically included for no additional premium on eligible policies.⁷

Guaranteed convertibility

Flexibility for future sales! Clients can convert our term product to one of our current permanent products available at the time of conversion without evidence of insurability, subject to the terms of the policy.

Overloan protection⁸

An important benefit for those clients who may use their policy as an income supplement vehicle, the Overloan Protection

Benefit may also keep the policy from lapsing due to excessive loans and continue to provide death benefit coverage. If elected, the guarantee provided by this benefit may help a client avoid the adverse tax consequences that can result from a policy lapsing due to excessive loans or withdrawals.⁴ See chart for availability.

Protected death benefit option⁸

The protected death benefit is an excellent option for clients who desire the guarantee of a specific death benefit amount upon their death and will also use their policy to help supplement their income. The guarantee provided allows the client to choose their minimum death benefit amount, while they continue to access their accumulated policy values through loans or withdrawals.⁴ See chart for availability.

**Varies by product and state.*

All of our
universal life products include
**two-year rolling
target premiums!**

Products At-A-Glance

Focus on:

Premier Term

Low Cost

Market: Ideal for competitive situations and large cases.

Highlights:

- Offers 10, 15, 20 and 30-year level premium guarantee periods, depending on issue age¹
- \$100,000 minimum face amount
- Accelerated death benefits for critical, chronic, and terminal illness (CCT)⁷

Conversions are allowed according to the following schedule:

- **10-year term length:** the earlier of 7 years or age 70
- **15-year term length:** the earlier of 12 years or age 70
- **20-year term length:** the earlier of 15 years or age 70
- **30-year term length:** the earlier of 20 years or age 70

The conversion period is never less than 5 years regardless of issue age.

NOTE: The critical illness benefit on Premier Term is not available in California.

Focus on:

Strategic Protector® IUL

with Premium Guarantee Rider (PGR)

Low Cost

Guarantees

Cash Value

Market: Ideal for clients who desire an extended death benefit guarantee with strong potential for cash value accumulation.

Highlights:

- Optional PGR extends the No-Lapse Guarantee period to any age up to 120²
- Premium Recovery Endorsement provides the opportunity to recover part or all of the total premiums paid within a 60-day window after the 15th, 20th and 25th policy anniversary upon full surrender of the policy¹³
- Interest bonuses on both the fixed and index account¹⁰
- Variable interest rate policy loans available in policy year one⁶
- Guaranteed Net Zero Cost Loans in years 6+⁵
- Protected Death Benefit Option⁸
- Accelerated death benefits for critical, chronic, and terminal illness (CCT)⁷

Focus on:

Essential Guaranteed® UL 5

Low Cost

Guarantees

Market: Ideal for clients looking for affordable long-term guaranteed death benefit protection and are not concerned with cash value accumulation.

Highlights:

- Guarantee the death benefit to any age up to 120²
- Premium Recovery Endorsement provides the opportunity to recover part or all of the total premiums paid within a 60-day window after the 15th, 20th and 25th policy anniversary upon full surrender of the policy¹³
- Guaranteed exchange privilege allows exchange to IUL products without evidence of insurability and NO surrender charge⁹
- Accelerated death benefits for critical, chronic, and terminal illness (CCT)⁷

Focus on:

Strategic Protector® IUL (Base Policy)

Low Cost

Cash Value

Market: For clients requiring a cash value accumulation product with a low-cost structure and low face amount. Excellent for single-pay and short-pay cases.

Highlights:

- Potential for high long-term cash value growth
- Low-cost structure for low premium to carry
- Interest bonuses on both the fixed and index accounts¹⁰
- Variable interest rate policy loans available in policy year one⁶
- Guaranteed Net Zero Cost Loans in years 6+⁵
- Protected Death Benefit Option⁸
- Accelerated death benefits for critical, chronic, and terminal illness (CCT)⁷

Focus on:

Strategic Accumulator® IUL 2*

Cash Value

Market: Designed for great long-term cash value accumulation potential through a strong income stream while reducing the effects of volatility and taxes. Ideal for clients who may be interested in helping supplement their retirement. Most appropriate for cases with a high funding level.

Highlights:

- Strong long-term cash value accumulation potential through multiple interest bonus opportunities:
 - A base bonus on fixed and index accounts¹⁰ in years 11+
 - A higher current bonus beginning in year one for allocations to Fidelity Multifactor IndexSM 5% ER
 - A separate bonus for funds borrowed as a result of Fixed Interest Participating Policy Loans¹¹
- Fixed Interest Participating Policy Loans¹⁵ available in policy year one
- Variable interest rate policy loans available in policy year one⁶
- Guaranteed Net Zero Cost Loans in years 6+⁵
- Protected Death Benefit Option⁸
- Accelerated death benefits for critical, chronic, and terminal illness (CCT)⁷

**Not available in all territories.*

Focus on:

Strategic Accelerator® IUL 2

with Waiver of Surrender Charge Option (WOSC) Rider

Early Cash

Market: Strategic Accelerator IUL 2 is designed for clients who want to leverage their premium into a larger tax-free death benefit with the potential to cover the high cost of a critical, chronic, or terminal illness, all while maintaining access to potential cash value.

Highlights:

- 0% premium load
- 0% surrender charge when WOSC is selected at time of application¹⁴
- Surrender charge period is 10 years if WOSC is not selected at time of application
- Strong early cash value performance
- Accelerated death benefits for critical, chronic, and terminal illness (CCT)⁷
- The WOSC is available on both business and individual cases
- Variable interest rate policy loans available in policy year one⁶
- 10% of the account value is available for a penalty-free withdrawal beginning in policy year two. If the Waiver of Surrender Charge is elected there is no withdrawal charge for any partial withdrawals.

Get your healthiest clients underwriting decisions WriteAway® with Midland National's underwriting process, available on all products through ExactApp®.¹⁴

The Fidelity Multifactor Yield IndexSM 5% ER (the "Index") is a multi-asset index, offering exposure to companies with attractive valuations, high quality profiles, positive momentum signals, lower volatility and higher dividend yield than the broader market, as well as U.S. treasuries, which may reduce volatility over time. Fidelity and its related marks are service marks of FMR LLC.

Fidelity Product Services LLC ("FPS") has licensed this index for use for certain purposes to Midland National[®] Life Insurance Company (the "Company") on behalf of the Product. The Index is the exclusive property of FPS and is made and compiled without regard to the needs, including, but not limited to, the suitability needs, of the Company, the Product, or owners of the Product. The Product is not sold, sponsored, endorsed or promoted by FPS or any other party involved in, or related to, making or compiling the Index. The Company exercises sole discretion in determining whether and how the Product will be linked to the value of the Index. FPS does not provide investment advice to owners of the Product, nor to any other person or entity with respect to the Index and in no event shall any Product contract owner be deemed to be a client of FPS.

Neither FPS nor any other party involved in, or related to, making or compiling the Index has any obligation to continue to provide the Index to the Company with respect to the Product. Neither FPS nor any other party involved in, or related to, making or compiling the Index makes any representation regarding the Index, Index information, performance, annuities generally or the Product particularly.

Fidelity Product Services LLC disclaims all warranties, express or implied, including all warranties of merchantability or fitness for a particular purpose or use. Fidelity Product Services LLC shall have no responsibility or liability whatsoever with respect to the Product.

Agents offering, marketing, or selling accelerated death benefits for chronic illness in California must be able to describe the differences between benefits provided under an accelerated death benefit for chronic illness and benefits provided under long-term care insurance to clients. You must provide clients with the ADBE Consumer Brochure for California that includes this comparison. Comparison is for solicitation purpose only, not for conversions.

1. Premiums are guaranteed to remain level for the initial 10, 15, 20, or 30 year period. After the premium guarantee period, premiums will increase annually but will never exceed the Guaranteed Annual Renewal Premium.

2. Subject to premium payment requirements.

3. The tax-deferred feature of the indexed universal life policy is not necessary for a tax-qualified plan. In such instances, your client should consider whether other features, such as the death benefit and optional riders make the policy appropriate for your client's needs. Before purchasing this policy, your client should obtain competent tax advice both as to the tax treatment of the policy and the suitability of the product.

4. In some situations loans and withdrawals may be subject to federal taxes. Midland National does not give tax or legal advice. Clients should be instructed to consult with and rely on their own tax advisor or attorney for advice on their specific situation. Income and growth on accumulated cash values is generally taxable only upon withdrawal. Adverse tax consequences may result if withdrawals exceed premiums paid into the policy. Withdrawals or surrenders made during a Surrender Charge period will be subject to surrender charges and may reduce the ultimate death benefit and cash value. Surrender charges vary by product, issue age, sex, underwriting class, and policy year.

5. Net Zero Cost Loans are loans charged and credited at the same interest rate percentage for a net zero cost. The policy year and amount available vary by product. Please refer to the specific product marketing guide for details.

6. The net cost of a variable interest rate loan, or variable interest participating policy loan as it is referred to as on Strategic Accumulator 2 IUL, could be negative if the credits earned are less than the interest charged. The net cost of the loan could also be larger than under standard policy loans if the amount credited is less than the interest charged. In the extreme example, the amount credited could be zero and the net cost of the loan would equal the maximum interest rate charged on variable interest loans. In brief, Variable Interest Rate Loans have more uncertainty than Standard Policy Loans in both the interest rate charged and the interest rate credited.

7. Subject to eligibility requirements. The death benefit will be reduced by the amount of the death benefit accelerated. Since benefits are paid prior to death, a discount will be applied to the death benefit accelerated. As a result, the actual amount received will be less than the amount of the death benefit accelerated. An administrative fee applies at time of election.

8. Some living benefits cannot be elected simultaneously. If the overloan protection benefit is elected, the accelerated death benefits and the protected death benefit cannot be elected. If Policy has a Premium Guarantee Rider attached to it, such rider will be terminated upon the election of the Protected Death Benefit.

9. Allows policyowner the right to exchange policy, without evidence of insurability and surrender charges, to one of our cash value accumulation indexed universal life policies available at the time of exchange. The Cash Surrender Value on the new policy may not be greater than the Cash Surrender Value on the policy being exchanged. Not available for policy ages 76 and above or if there is an outstanding policy loan.

10. Conditionally Guaranteed Interest Bonus on Fixed Account – If the current fixed account crediting rate exceeds the guaranteed fixed account crediting rate and your client's policy is in effect after the 10th policy anniversary, your client's policy will receive an Interest Bonus. Depending on the product, the Interest Bonus percentages may not be guaranteed and could be subject to change; however once a policy is issued, the guaranteed percentage will not change. This bonus may not apply to loaned amounts.

11. The net cost of a Fixed Interest Participating Policy Loan, only available on Strategic Accumulator 2, could be negative if the credits earned are less than the interest charged. The net cost of the loan could also be larger than under standard policy loans if the amount credited is less than the interest charged. In the extreme example, the amount credited could be zero and the net cost of the loan would equal the maximum interest rate charged less any guaranteed bonus. In brief, fixed interest rate loans have more uncertainty than standard policy loans in the interest rate credited.

12. Subject to eligibility requirements and only available at time of policy issue.

13. This benefit will remain in effect to the 25 year policy anniversary as long as all gross premiums paid guarantee the policy to at least attained age 95, assuming no policy loans are taken. The premium recovery value is the total premiums paid less any policy debt or withdrawals, including withdrawal charges and processing fee. The total premiums paid will be reduced by the same portion as the death benefit for any acceleration of the death benefit. The premium recovery value will never be less than the net cash surrender value. Refer to the endorsement for complete details.

14. Surrender charges will not be waived if the policy is surrendered under an external 1035 exchange (except in FL). A decrease charge will be assessed if a reduction in the specified amount is requested during the waiver of surrender charge period. However, if a partial withdrawal results in a reduction of the specified amount, the withdrawal charge is waived. There is an additional charge for this rider and it must be applied for at the time of application.

Indexed Universal Life insurance products are not an investment in the "market" or in the applicable index and are subject to all policy fees and charges normally associated with most universal life insurance.

Neither Midland National nor its agents give tax advice. Please advise your customers to consult with and rely on a qualified legal or tax advisor before entering into or paying additional premiums with respect to such arrangement.

Sammons Financial[®] is the marketing name for Sammons[®] Financial Group, Inc.'s member companies, including Midland National[®] Life Insurance Company. Annuities and life insurance are issued by, and product guarantees are solely the responsibility of, Midland National Life Insurance Company.
